

CHAIN SHARPENERS

AUTOMATIC T-REX

Spending too much time sharpening saw chain? DinaSaw chain saw sharpeners are the fastest, most accurate and affordable chain sharpeners in the world today.

Remarkably versatile, from small arborist right through to 3/4" harvester chain. Both left and right hand cutters are sharpened in the one pass at a speed of 30 teeth per minute.

The DinaSaw "T-Rex" is the ultimate chain saw sharpener. Microprocessor controlled with automatic feed means the operator needn't stay during the sharpening process.

Quite simply - if your business relies on correctly sharpened saw chains then a DinaSaw sharpener is the answer.
